CAREER OBJECTIVE

Ambitious and growth-focused MERN Stack Developer with hands-on experience building **20+ full-stack applications** using **React, Node.js, Express, MongoDB, Firebase and modern UI frameworks**. Proven ability to design scalable APIs, optimize frontend performance and deliver responsive, user-centered interfaces. Skilled in debugging, problem-solving and rapid learning, with a strong foundation in Java, C, C++, python and database systems.

Committed to evolving into a **full-stack engineer and future tech entrepreneur**, while contributing to high-impact teams through clean code, ownership mindset and continuous innovation.

EDUCATION

B.Sc in Computer Science & Engineering **East West University, Dhaka**	**Starting date – End date** **2023 - 2027**

PROJECTS

1. Gariwala: **Github repo | Live API | Frontend**

- **Tech:** React 19, Tailwind, DaisyUI, Firebase Auth, Google OAuth, Node.js, Express, MongoDB, Axios, Context API, Framer Motion
- **Features:** Pre-filled booking system, secure auth and a full user dashboard for profile updates & listings with smooth UI interactions.

2. WarmPaws: **Live Link | GitHub Link**

- **Authentication:** Pre-filled booking system with smart notifications (Toast) for faster user actions. Secure Email/Password + Google Sign-In with strong password validation.
- **UI/UX:** Smooth animations and sliders using **Swiper** and **AOS** for better engagement as well as Interactive dashboard for updating profile info and viewing activity.

SKILLS

- <u>**Frontend:**</u> HTML5, CSS3, Tailwind, DaisyUI, Bootstrap 5, JavaScript (ES6+), React.js, Next.js (basics)
- <u>**Backend:**</u> Node.js, Express.js, Mongoose
- <u>**Programming Languages:**</u> Python, Java, C, C++, php

- **Database & Tools:** Git, GitHub, VS Code, mongoDB, Xampp, SQL, Firebase Authentication, JWT, REST API, WSL2, kali, ubuntu.
- **Soft Skill:** Leadership, Communication, Problem-Solving, Adaptability, Time Management

EXTRA CURRICULAR ACTIVITIES

- Participated in programming contests and hackathon practices
- Built multiple personal projects and contributed regularly on GitHub
- Active in university tech community by sharing knowledge and project updates

Languages

- **Bangla:** Native
- **English:** Professional proficiency
- **Hindi/Urdu:** Conversational
